CAREER OBJECTIVE

Seeking a challenging, growth-oriented engineering position with an organization that will make full use of my skills to fulfill the overall objectives of the organization

SUMMARY

- 3.7 years of experience as Software Developer in software design, analysis, development, testing and implementation of Java Based applications using Enterprise Integration Frameworks
- Proven ability to leverage full-Application knowledge and experience to handle project End to End from requirement analysis to production deployment.
- Executed projects in technologies: Java, Apache Camel, JBOSS Fuse ESB, Couchbase, SQL, Drools etc.
- AWS Certified Developer Associate understand common AWS Services.
- Basic Understanding of Spring boot with Microservices, Spring JPA and Hibernate.
- Well acquainted with all phases of SDLC and working in Agile Methodology.
- Ability to learn and develop using new technologies quickly.

SKILLS

Java	Rest Services	Micro Services	AWS	Spring Boot
Spring	Couchbase	Maven	Concurrency	Drools

EXPERIENCE

SOFTWARE DEVELOPER

Amdocs Optima, Gurgaon / March 2018 - Present

- Being part of Middleware ESB team, working closely on developing Microservices basically exposing Rest API's in every microservice to interact with various downstream billing and Product Catalog Systems.
- Worked on modules implementing business logic using Java and Apache Camel Framework.
- Worked on NoSQL Document -Oriented Couchbase Database.
- Worked on development of Case Management Module End to End from design to deployment using Drools, Couchbase, Apache Camel etc.
- Responsible for writing Junit to develop tested code and performing Unit Testing.
- Experience on JBOSS Developer Studio, JBOSS Fuse to develop Rest API's.
- Worked with Team Members to investigate, troubleshoot an issue in an efficient manner.

SOFTWARE DEVELOPER

Amdocs Delivery, Pune / July 2017 – February 2018

- Part of Customer Management Team which acts as centralized application used by various other application to perform Billing, generating Invoices.
- Learning existing functioning and implementation of existing product and doing customization without breaking existing functionality depending on Customer Requirement.
- Working on automation of Existing API's using SoapUI for EJB and Webservice
- Wrote migration Scripts helping to transfer certain critical data like customer and Subscriber Information to Amdocs System in a more reliable and efficient way.
