Objective

Engaged Scrum Master with skills in Agile planning and leadership. Seeking to improve cost, delivery time and quality metrics. Having 13+ years of overall experience, of which 5+ years as Scrum Master with proven track record of delivering high quality software, on time and within budget. Very keen on breaking barriers to deliver customer values and always takes time to understand individual motives to collective solutions. Passionate about being unique.

Summary

Managing the delivery in facilitating the following scrum ceremonies (Sprint planning, Daily Stand- up, Backlog grooming, Intermediate Demo, Sprint Review and Sprint retrospective).

Ensure the scrum teams are adhering to the DOR and DOD criteria.

Ensure the team is updating efforts & story status in JIRA on a day to day basis.

Ensure PO is tracking and creating stories to address customer feedback.

Constantly keeps track of burn down chart and inform PO if there are any risks involved in the current sprint.

Share the sprint completion report to management with the following details (Velocity and capacity chart, Sprint Burndown and Release Burn-Up charts.

Facilitate Look ahead meeting and getting the upcoming 3 sprints backlog items ready with the help of PO.

Interacts with the team to identify blockers/ impediments and help them to unblock the same. Update the obstacles in the Obstacle management tool.
