

Yashesh Bhavsar

Project Manager

I have six-plus years of overall experience, which includes two years of project management, one year as the mobile team lead, and three years of developing mobile applications using technologies like Android, Flutter, React Native, and Xamarin. I've been a project manager at Voing Technologies since February 2022. Voing Technologies is a sister company to Dash Technologies Inc., which is ISO 9001-certified and a USA-based company. At the company, it is my responsibility to handle projects in accordance with the requirements of the clients and deliver top-notch work within the deadline.

Work Experience

Project Manager

FEB - 2022 to Present

Voing Technologies LLP.

- Provide on-site leadership for the project team by developing and inspiring team members to achieve project objectives while staying on track with their tasks and project milestones.
- Ownership of the entire project life cycle: successful project delivery will encompass full implementation from start to finish for one major or multiple minor initiatives at the same time.
- Ensure that the whole program is aligned with and directly supports the achievement of strategic objectives by managing all aspects of many connected initiatives.
- Report on project success criteria, metrics, testing, and deployment management.
- In a problem-solving context, work creatively and analytically while displaying teamwork, innovation, and excellence.
- Participate in the development of procedures, templates, rules, tools, and partnerships to help the company expand and mature these skills.
- For all phases of the project, prepare estimates and a complete project plan.
- Obtain sufficient resources to meet project objectives within the timeframes set.
- Maintain a close eye on employee performance and complete performance evaluations.
- Recognize how technology, operations, and business needs are all intertwined.
- Demonstrate a functional understanding of how solutions will meet client objectives while adhering to industry best practices.
- Keep track of project scope and changes.
- For all phases of the project, prepare estimates and a complete project plan.
- Assist in the project's internal quality control.
