CAREER OBJECTIVE

Looking to obtain a deserving position in a challenging environment, to sharpen my Technical/ Managerial/Business skills, as well as to attain an opportunity to gain useful Experience.

TECHNICAL HIGHLIGHTS

- * 7 years of experience in IT industry, in Test Management & Team Management under Agile Scrum based projects.*
- * PSM Certified. Practicing Agile Scrum Methodology right from the beginning of my Career.*
- * Practicing as Scrum Master, Agile Coach, and Test Manager for End-to-End Testing i.e. Functional, UI, Middleware, Webservices/ API, Database & Mobile testing in Integrated systems and cloud based applications.*
- * Experienced as Scrum Master for 3 projects in the period of 1 year and 8 months, which falls under Banking domain and Products domain.*
- * Good knowledge in different phases of Software Testing Life Cycle (STLC) that includes analyzing Business Requirements and Functional & Technical Specifications, Identification of Test Scenarios, Designing Test Cases, Smoke & Sanity Testing, Testing the End-to-End Flow, Regression Testing, etc.*
- * Proficient in various testing types and methods, like Functional Testing, Web Services/ API Testing, Middleware Testing, UI Testing, System Integration Testing, Salesforce sales & service cloud Applications Testing (including Lightning Community Portal), Database Testing, Mobile Testing, SAP report Testing (Callidus) and Veeva Vault Cloud based application Testing.*

PROFESSIONAL SKILLS

- * Exceptional in Scrum Management, Team Management, multi-tasking skills and ability to work well under tight deadlines, with remarkably efficiency and productivity.*
- * Best in Volunteering for taking up additional responsibilities when it comes to Scrum Management and Test Team/ Process Management, plus the related activities.*
- * Skillful in collaborating with Scrum team, other teams, developers, management and subordinates.*
- * Good in handling test documentation plans, holding grooming sessions, scrum meetings, review calls, triage calls, defect discussions, deployment issues, etc., by involving the Development, Deployment and Test Teams.*
- * Strong in skills like defining best practices for team organization, scrum practices, testing process, hosting sessions to the team on areas of improvement and documenting the same.*
- * Recognized multiple times for Team Management, Leadership & Organizational Skill, by the Managers from both Client and payroll organizations.*
