### Jr.Developer

Vandesys Inc

02/2014 – 10/2015

Bangalore,India

Vandesys Inc. is a Custom Software & Technical Consulting company

#### Achievements/Tasks

- Responsible for custom development of functionality on Force.com platform using Apex and Visualforce.
- Developed custom Account and Address (custom object to store multiple addresses) search functionality using Visualforce, Apex Controller, and dynamic SOQL and SOSL. To enhance usability, Visualforce page was designed to display Address/es beneath each Account. Account name and Address had hyperlinks for easy navigation.
- Responsible for monitoring of batch processes, error management, and trouble shooting of Order integration issues.
- Involved in the development of schedulable batch process for sending Sales, Inventory, and Sample Orders from Salesforce.com to SAP PI using web services.
