

SUMMARY

"Experienced in track record of successfully managing and optimizing network infrastructure for diverse clients. Proficient in Cisco, Juniper, and cloud networking technologies, with expertise in routing, switching, and network security. Skilled in providing 24/7 project support, hardware replacements, and disaster recovery planning. Committed to ensuring high network availability and delivering effective solutions to complex network challenges.

EDUCATION

AMGOI Mumbai University

Diploma in computer Engineering 2016-2018

HSC Mumbai University 2014-2016

SSC Mumbai University 2013-2014

SKILLS

- Networking Technologies (Cisco, Juniper)
- Routing and Switching protocols.
- Network Security (Firewalls)
- Data Center Operations.
- Network Access Control (Aruba NAC)
- Cloud Networking (AWS)
- Load Balancing (Citrix Netscaler, RADWARE)
- DR-Drill activity / BCP.
- Troubleshooting & Technical Support
- Executive Reporting
- Team Collaboration

PERSONAL DETAILS

- Total Experience :- 5 Years
- Current Location :- Navi Mumbai
Koparkhairane. 400709
- Native Place :- Kolhapur
- Date of Birth :- Jan 13, 1999
- Gender :- Male
- Marital Status :- Single

PROFESSIONAL EXPERIENCE

NOC ENGINEER

IT SOURC (CRISIL LTD) | DEC 2022 - Present

- Manage and optimize network infrastructure across multiple locations.
- Proficient in Cisco switches and routers, Juniper switches, Checkpoint and Fortigate firewalls, Aruba NAC, Citrix Netscaler, and AWS cloud networking.
- Ensure high availability and reliability by overseeing network operations for over 10 locations.
- Configure, troubleshoot, and maintain Cisco switches and routers to optimize network performance.
- Administer Juniper switches to enhance network stability and security.
- Implement and maintain Checkpoint and Fortigate firewalls to safeguard network infrastructure.
- Manage Aruba NAC (Network Access Control) for comprehensive network security.
- Collaborate with teams to configure and maintain Citrix Netscaler VPN & RADWARE Load balancer.
- Contributed to the successful migration of on-premises infrastructure to AWS cloud, reducing costs and improving scalability.

NETOWRK FIELD ENGINEER

WIPRO LTD | 2018 - 2022

- Provided 24/7 filed support, resolving network issues for multiple clients.
- Installed and configured switches and routers based on client requirements.
- Upgraded Cisco IOS, Rommon, and licenses for switches and routers.
- Conducted Data Center - Disaster Recovery (DC-DR) Drills.
- Executed hardware replacements in live production environments, minimizing downtime.
- Offered technical support for network problems and data center issues within SLA timelines.
- Coordinated with multiple TAC support teams to restore Data Center services.
- Handled escalations and prepared executive reports for Pre-Plan Activity (POA).
- Served as a resident engineer for multiple clients (RBI, HDFC, LIC, CIDCO, SCB).
