ABOUT ME

- I am a dynamic QA Lead with a robust track record spanning more than ten years at IQLEXA Tech, where I have honed my skills in a variety of testing environments, including functional, mobile, web, and cross-platform arenas. My expertise extends to API testing and SQL, complementing my unwavering commitment to driving quality excellence. With a solid foundation as a B.Sc graduate, I possess both the technical knowledge and practical skills essential for ensuring the utmost quality in every project. Allow me the opportunity to leverage my extensive experience to boost your team's performance and achieve exceptional outcomes.
- I am adept at understanding and analyzing test requirements, maintaining meticulous oversight throughout the SDLC and STLC, and am skilled in test automation utilizing Selenium WebDriver, Selenium Grid, and UFT. My expertise extends to automating web application testing, Java programming, and leveraging frameworks such as TestNG for robust testing procedures. I excel in handling elements in Selenium WebDriver, crafting test cases, and executing them with precision, while also adeptly reporting defects.
- My experience encompasses data-driven testing, cross-browser testing, and parallel test execution, with a keen understanding of the LoadRunner automation tool. I have a proven track record in implementing effective automation frameworks using Selenium and bring extensive experience in ERP, banking, financial, and e-commerce domains.
- I am well-equipped to manage test estimations and strategize test implementations, creating comprehensive testing artifacts including scenarios, cases, defect reports, and summaries. As a self-motivated professional with high ethical standards, I am ready to contribute to your team's success. My excellent communication skills, team-oriented approach, and analytical problem-solving abilities make me an ideal candidate to drive quality assurance forward in your organization.
