## Work Experience

---

### Lead full stack developer

The Association for Manufacturing Technology - Bengaluru, Karnataka  
February 2023 to May 2023

- Handling multiple websites with React & NodeJs.
- Backend We are using mostly New CMS Strapijs.
- Handling Kafka for live streaming.
- Handling a team with 3 developers.

### Software Developer -3

Cloud Collab Technologies - Bengaluru, Karnataka  
August 2022 to January 2023

Working with multiple projects with strapijs, nodejs, Angular, React.

### Team Leader (Part-time)

Ultrafast chargers pvt ltd - Bengaluru, Karnataka  
March 2022 to July 2022

Ultra-Fast Chargers is the choice for DC fast and high-power electric vehicle (EV) chargers to suit the needs of any fleet owner/operator for Electric Vehicles like Trucks, Buses, Commercial Vehicles, Mining Equipment, etc.

Electric fleet owners and operators enjoy a lower total cost of ownership, cheaper energy costs, less maintenance, reduced environmental impact, and greater convenience with on-site DC fast charging.

Key Point:

- The Plug & Charge (PnC) ISO 15118 use case is already being deployed and is a first step in simplifying secure EV charging.
- OCPP 2.0 Algorithm.
- I am maintaining a chargers screen (Angular, Node, C# WinForm).
- I am handling a charger board via CANBUS.
- we are generating a 50kw - 350 kw chargers.
- I have good experience to handle charger board with USBCAN c#, Handling a Microcontroller code with C language (TI controller- C2000 D28379D).
- I am using Angular, Nodejs, C#, C, ASP.NET CORE, Javascript, Nginx, and Kafka for streaming current and voltage.
- I have also a good dev-ops experience (AWS, Scaleway, Digital Ocean)

Website : <https://ultrafastchargers.com>

## **Sr. Full Stack Developer**

Maven Realty - Remote

May 2020 to July 2022

APTAVA is a USA based product. APTAVA is a tools for Real estate agent, property owners, managers and landlords to achieve a higher peak of efficiency, from initial search to signed lease and beyond.

I used below Technology to make APTAVA.

- Nodejs
- MongoDB
- Angular
- Nginx

## **Lead Developer- (Part-time)**

Akcess.io - Remote

November 2019 to June 2020

AKcess is a secure digital ID solution for private and commercial use. It allows users to create a unique secure identity, which is validated by a trusted authority (Notary Public, Bank or else). It also allows users to upload additional personal information, such as addresses, previous addresses, official documents (passports, identity cards, driving licenses, certificates etc.) and get them validated. The users will have the option to share their information and documents without exposing their full personal details in the process. Sharing information and documents would be based according to the user's consent in a very easy and practical way.

As of my work, i have made whole software architecture with server security and scalable api. even i added blockchain servers. and i handle 6 people of team with multiple department.

i have good experience with servers, Nodejs, MongoDB, Javascript.
