Career Objective

To give my best service for the company where my skills and education are utilized for continuous growth and advancement of company, and where I can sharpen my technical skills and analytical ability.

Professional Experience

Have been working for Tata Consultancy Services since Feb-2011. Have worked (Feb 2011- Aug 2013) with Container-Centralen (Denmark) client and now working (Aug 2013 – till date) with British Airways client.

Highly qualified application Migration Specialist with experience in the industry (Working in RHEL5 to RHEL7 Migration). Enjoy creative problem solving and getting exposure to multiple projects and would excel in the collaborative environment on which your company prides itself.

Worked as Java and UI Developer, Java Technical Design Lead, Applications Support Analysts and Infrastructure Analysts.

Worked as Scrum team member in Agile project.

Expertise in all phases of software development life cycle: Requirement Gathering, analyze the requirements, understand the advantages and disadvantages, create HLD and LLD documents and get it implemented.

Extensively used my development skills as per projects requirement.

Good communication, analytical and interpersonal skills; ability to perform as part of a team as well as an individual contributor.

Ability to grasp and apply new concepts quickly and effectively.

Technology Experience: Java (1.6 & 1.8), Microservices, REST API's, Webservices, SQL, Linux commands and Shell Scripting.

Front End Technologies: HTML, CSS, JS, JSP, XML, XSLT, JSON

Tools Experience: Jenkins, SVN, Eclipse, JIRA, SQL Developer, Splunk and SNOW.

Framework: SPRING, SPRING BOOT

Middleware Technology Experience:
Apache and WebLogic creation and configurations,
App deployments and configurations,
Application Security Solutioning using Akamai and Apache configurations,
Capacity Management and CPU Memory Analysis using thread dump,
Jenkins build and config issues,
SSL Certification management,
Health monitoring check using Dynatrace dashboard and Splunk.

Onshore Experience

Having 4+ years of Onshore experience at Client location (London) to interact with clients to get the requirements and discuss on the Live issues.
