Graduation (B.Sc.-Computer Science)	B.U. Bhopal (M.P.)	2007	50.2%
Higher Secondary School	M.P. Board Bhopal (M.P.)	2004	62.2%
High School	M.P. Board Bhopal (M.P.)	2002	65.2%

PROJECT DETAILS

Project Name	Olive (J&J)		Team Size	12
Short Description	In this project we manage user accounts, languages, language sets, Reports, upload documents etc. It was developed in Classic ASP long back. We did migration for this project from classic ASP to MVC 5 along with some enhancement.			
Role & Contribution	- Involved in development and enhancement activity. - Fixed ongoing issue and resolve Tickets based on priority. - Responsible for Application deployment & Client demo.			

	➢ Managing and providing technical guidance/support to the team
Technology &Tools	Visual Studio, SQL Server, Oracle, C# .Net, MVC 5, .Net Core, Azure DevOps, Azure CI/CD Pipeline, Git.
Key Achievements	Got client appreciation

Project Name	**Invoice File Conversion (OKQ8)**	**Team Size**	9
Short Description	It's one of the OKQ8(NORDIA) project. It collects data from multiple source (Excel file, CSV file, XML, JSON, Oracle, SQL, Webservice, Web APIs etc.). We apply filters using SSIS packages to get the expected filtered/Short listed data as result.		
Role & Contribution	➢ Managing and providing technical guidance/support to the team. ➢ Successfully completed requirement gathering, analysis, planning, estimation, designing, implementation, coding, de-bugging, troubleshooting, Unit testing. ➢ Fixed ongoing issue and resolve Tickets based on priority. ➢ Responsible for Application deployment & Client demo		
Technology &Tools	Visual Studio, SQL Server Data Tools, C# .Net, SSIS, GitHub, Azure DevOps.		
Key Achievements	Got appreciation to project completion before deadline.		

Project Name	**COMDA (Velliv)**	**Team Size**	45
Short Description	It is one of the development projects which collect data from multiple source (Excel file, CSV file, XML, JSON, Oracle, SQL, Webservice, Web APIs etc.). We apply multiple filters using SSIS packages to get the expected filtered/Short listed data as result.		
Role & Contribution	➢ Managing and providing technical guidance/support to the team. ➢ Successfully completed requirement gathering, analysis, planning, estimation, documentation, designing, implementation, UI integration, coding, de-bugging, troubleshooting, Unit testing. ➢ Implement CR as per client requirement. ➢ Application deployment & Conduct Client demo.		
Technology &Tools	Visual Studio 2010, SQL Server Data Tools, MS .Net, SQL server 2008, SSIS, JIRA.		

Project Name	**JCI AMS (RUSKIN)**	**Team Size**	15
Short Description	It's one of the JCI AMS project contains lots of applications, developed using various technologies ex.- ASP .Net, VB .Net, Classic ASP, WPF, SQL, Oracle DB etc. We worked for technical support along with RC implementation and Migration activity.		

Role & Contribution	- Managing and providing technical guidance/support to the team. - Work on requirement gathering, analysis, planning, estimation, designing, implementation, UI integration, coding, troubleshooting, Unit testing. - Fixed ongoing issue and resolve Tickets based on priority. - Conduct Client demo.
Technology &Tools	Visual Studio, SQL Server, Oracle DB, Classic ASP, VB .Net, WPF, ASP .Net, ReactJS, Kendo JS, JIRA, TFS.

Project Name	JCI AMS (WebNA)	Team Size	20
Short Description	JCI AMS project contains lots of applications, some of them are Intranet application and some of them are Internet application. These applications are developed in using various technologies. Ex. - ASP .Net, VB .Net, WPF, Classic ASP, SQL Server, Oracle DB etc. Here we are providing technical support for it along with RC implementation and Migration activity.		
Role & Contribution	- Managing and providing technical guidance/support to the team. - Involved in planning & estimation activity. - Participated and handle Client discussion. - Fixed ongoing issue and resolve Tickets based on priority. - Implement CR as per client requirement.		
Technology &Tools	Visual Studio, SQL Server, Oracle, Classic ASP, VB .Net, WPF, ASP .Net, Kendo JS, Angular, JIRA, TFS.		

Project Name	Supply Day	Team Size	60
Short Description	Supply Day is an e-commerce product. It addresses all aspects of Suppliers & Customers (B2B & B2C). This project is developed using nopCommerce platform. Admin portal, B2B portal, B2C portal, Vendor portal warehouse are some of the main modules of this project.		
Role & Contribution	- Managing and providing technical guidance/support to the team. - Successfully completed requirement gathering, analysis, planning, estimation, documentation, designing, implementation, UI integration, coding, de-bugging, troubleshooting, Unit testing. - Fixed ongoing issue and resolve Tickets based on priority. - Handel application deployment activity & client calls.		

Technology &Tools	Visual Studio, SQL Server, C# .Net, MVC 5, .Net Core, Angular**,** JavaScript, Git, Azure DevOps
Key Achievements	Got appreciation to manage team and deliver all module on time very smoothly.

Project Name	TUSBE (Toronto University Student Book Exchange)	Team Size	1
Short Description	This is a web-based application to exchange books of students. Using this app any student can post his/her books (new or old) and they can sell or purchase books from tusbe.com.		
Role & Contribution	- Responsible for requirement gathering, analysis, planning, estimation, documentation, designing, implementation, UI integration, coding, de-bugging, troubleshooting, Unit testing. - Responsible for application performance improvement. - Handel application deployment activity & client calls.		
Technology &Tools	Visual Studio, SQL Server, ASP .Net, C#.Net, ReactJS, jQuery, Azure DevOps, Azure CI/CD Pipeline.		
Key Achievements	Got client appreciation.		

Project Name	Sea Pines Job Posting	Team Size	1
Short Description	This is a web application is developed to post jobs from admin/HR. Here candidate can view job details and apply for those jobs by completing 13 steps.		
Role & Contribution	- Responsible for the dealing with client and requirement gathering. - Responsible for system setup an application designing. - Create and setup the DB, Table, SP. - Responsible for third party API integration. - Responsible for coding and defect fixing.		
Technology &Tools	Visual Studio, SQL Server, MVC, JQ JavaScript, jQuery, Type Script, GitHub, Azure DevOps, Azure CI/CD Pipeline.		
Key Achievements	Got client appreciation to deliver zero defect product.		

Project Name	SAB KICK START (South African Breweries Kick Start competition)	Team Size	1
Short Description	This is a web-based project to manage all functionality from apply for SAB competition till getting selected.		

Role & Contribution	- Successfully completed backed coding, UI integration, coding, de-bugging, trouble shooting, Unit testing. - Involved in development and enhancement activity. - Fixed defect and resolve Tickets based on priority. - Application deployment.
Technology &Tools	Visual Studio, SQL Server, C# .Net, DNN (Dot Net Nuke), jQuery, JavaScript, Angular, JIRA, TFS.
Key Achievements	Got best project award.

Project Name	WISHLU	Team Size	6

Short Description	Wishlu is a social application used to granting & share wishes from each other on their special occasions (B'day, marriage, anniversary etc.) It has integration with FB & twitter.		
Role & Contribution	- Managing and providing technical guidance/support to the team. - Successfully completed backed coding, UI integration, coding, de-bugging, trouble shooting, Unit testing. - Fixed ongoing issue and resolve Tickets based on priority. - Implement CR as per client requirement. - Application deployment. - Conduct Client demo.		
Technology &Tools	Visual Studio, SQL Server, C# .Net, MVC, jQuery, JavaScript, Type Script, Git Azure DevOps, Azure CI/CD Pipeline.		
Key Achievements	Successfully completed requirement gathering. Analysis, Estimation, coding, UI integration, Deployment, Team leads and support.		

Project Name	CONTACT APP	Team Size	5

Short Description	Contact App is the web service application which can be used for managing sent and received messages and Contacts in mobile application.		
Role & Contribution	- Managing and providing technical guidance/support to the team. - Successfully completed requirement gathering, analysis, planning, estimation, documentation, implementation, coding, de-bugging, troubleshooting. - Fixed ongoing issue and resolve Tickets based on priority. - Implement CR as per client requirement. - Application deployment.		

Technology &Tools	Visual Studio, SQL Server, C#.Net, WPF, Web API, SVN, Fiddler, JIRA.		
Key Achievements	Successfully completed requirement gathering, coding, deployment, Team leads and support.		
Project Name	**FOODIE**	Team Size	4
Short Description	Foodie is the web service application which is used for managing popular foods Detail. User can post, Update.		
Role & Contribution	➢ Managing and providing technical guidance/support to the team. ➢ Successfully completed requirement gathering, analysis, planning, estimation, documentation, designing, implementation, UI integration, coding, de-bugging, troubleshooting, Unit testing. ➢ Fixed ongoing issue and resolve Tickets based on priority. ➢ Implement CR as per client requirement. ➢ Application deployment. ➢ Conduct Client demo.		
Technology &Tools	Visual Studio, SQL Server, C#.Net, Web Services, SVN, Fiddler, JIRA.		
Key Achievements	Successfully completed requirement gathering. Analysis, Estimation, coding.		

PERSONAL PROFILE

- ➢ Name: Manorama Dhakde
- ➢ Father's Name: Mr. Parath Lal Dhakde
- ➢ Gender: Female
- ➢ Language Known: English & Hindi, Marathi.
- ➢ Correspondence Address: Manakar Chowk, Kaspate wasti, Wakad, Pune (Maharashtra) 411057.
- ➢ Permanent Address: At Post Satner, Opposite to Indian Oil Petroliam, Tehshil - Athaner, Dist. - **Betul** (MP) 460110.

STRENGTH

Quick learner & POSITIVE Attitude.
