PERSISTENT EXPERIENCE – PROJECT UNDERTAKEN 3

Children's Health Systems of Texas – March'20 - Till Date

- This project was related to Health care Domain. We used to manage the business process using Health cloud and marketing cloud. here we are working on different health cloud EHR objects and also Create a Patient Centric model enabled by 360° view of patients and physicians, delivering an outstanding experience.
- Worked on deployment activities using both Ant tool and Salesforce change set.
- Worked mainly on customizations using apex, enhancements at later stage of the project and bug fixes after each deployment.
- Skills improved on Apex trigger, Apex classes, Batch classes, ProcessBuilder, Workflow, Validation Rules, etc. while working in this project.

PERSISTENT EXPERIENCE – PROJECT UNDERTAKEN 2

Bajaj Finserv – Aug'19- March'20

- This project is related to Finance Domain.
- Mainly developed internal portal for loan processing. Any request for loan goes to the customer service team member then passes to the reviewer and finally to the approver. The members of the team can only see information related to the processing. Functionality is restricted using profile-based access on the lightning components.
- Worked on deployment activities using both Ant tool and Salesforce change set.
- Worked on developing lightning components.
- Skills improved on Security model, Apex classes, Process Builder, Workflow, Validation Rules, Email templates, etc. while working in this project.
