CAREER CONSPECTUS

- A dynamic professional with around **4+ years** of experience in the areas of Software Testing using **Java and Selenium**.
- Adapt in testing software products and handling projects efficiently for delivering the required applications in a very systematic way
- Hands on experience in Automation Testing and various testing techniques like Unit Testing, Functionality Testing, Regression Testing and Smoke Testing.
- Proficiency in enhancing **Automation Framework**, Business Scripts and Generic Functions
- Involved in developing the **Generic functions** for the scenarios
- Well acquainted with Software Development Life Cycle (SDLC), emerging software disciplines like **AGILE SCRUM Process** software development
- Hands on experience in using the tools like **Jira**
- Good experience in **E-COMMERCE** domain.
- Good communication & interpersonal skills with proven abilities in resolving complex issues
- Proficiency in using the **SOAPUI** for testing the **WebServices** calls.
- Good knowledge in using **GIT** for code repository.

Software Testing:

- Well acquainted with Software Test Life Cycle (STLC)
- Excellent in **Automation testing** using **Java and Selenium**
- Proficiency in **Core Java**
- Expertise in **Selenium Web Driver, TestNG**
- Good knowledge on **Maven**
- Well versed with various Bug Tracking tools like **JIRA**
- Expertise in **Cross Browser Automation Testing**
- Conducting **Functional Testing, Regression Testing** and **Smoke Testing**
- Ability to **work collaboratively** with Business Analysts, Testing teams, Developers and other team members in complex testing projects and in the overall enhancement of software product quality

Quality Assurance:

- Actively involved in updating **Test Automation Framework** as per the requirements.
- Writing and reviewing of **Test cases using Test Case Design Techniques**

Technical:

Tools : Selenium,JIRA
Version Control Tools : GIT
Package : MS-Suite (MS Word, MS Excel, MS Outlook).
Languages : Core Java.

Education:

Bachelor Degree from JNTUK

Employment chronicle

- Currently working in **KeySoft Infotech Solutions PVT LTD,Hyderbad** from February 2017.

Projects Handled:

PROJECT#1 : Alphabroder

Description:

Alphabroder is a top merchandise seller located in USA. They sell the goods in bulk to the wholesale vendors. Alphabroder supplies imprintable apparel and accessories to screenprinters,embroiderers,promotional products and other businesses. In this project we mainly deal with the modifications and enhancements of the site.
