SUMMARY

Business Analyst Consultant with more than 9+ years of professional experience. Have worked in various capacities as Business Analyst, Developer, QA along with Presales Support during the tenure and have always looked upon new challenges to support the team in the Consulting Space. I have worked on different technologies (Salesforce, ServiceNow, Java, JavaScript) in various domains with an appetite to upgrade my skill set and adapt to the latest trends. Have worked with various Clients including Fortune 50 and having onsite experience during implementations.
