- 
- An enthusiastic individual with **6 years** of experience in **IT** industry, Education and Data entry. Great experience in IT Software testing using modern testing tools namely Selenium WebDriver, Maven, Postman, RestAssured Library, JDBC, Oracle SQL Developer and more. Completed full intensive course in Software automation at Cybertek Coding School and having hands-on Software automation experience on real project, Sys Library. Working as a merchandise associate, I performed different types of testing namely usability and stability for products to ensure all products are bug free. Having experience in different fields, now I see myself as a highly motivated, passionate, quick-learner and ready to take on greater responsibilities and leadership.
- 

## Technical Skills:

<b>Automation Tools</b>	Selenium, RESTAssured, JDBC, Postman	<b>Repository System</b>	Git, Github
<b>Languages</b>	Java, SQL, HTML, Gherkin	<b>BDD Framework</b>	Cucumber
<b>Databases</b>	My SQL, Oracle	<b>Bug Tracking Tools</b>	Jira
<b>Platforms</b>	Windows, IOS	<b>Methodologies</b>	Agile, Waterfall
<b>IDEs</b>	IntelliJ, NetBeans, Oracle SQL Developer, Sublime Text, Android Studio	<b>Other Testing Tools</b>	TestNG, JUnit, Junit 5, Selenium Grid, Postman, Jenkins

---

## Educations:

### **Cybertek Coding School**

#### **SDET / Software Development Engineer in Test**

- The nation's top-ranked coding school focused on **Test Automation**, Full Stack Development, DevOps, and RPA. Completed over **1000+ hours of full-time course instruction**, projects, and **co-op work experience in the industry**.

### **Bachelor in English Language, University of Sulaimani**

- Studied English language Grammar and Syntax in depth
  - Studied English Literature of different era
  - Presented presentation in both English Grammar and Literature
  - Prepared and written research as part of the graduation process
-

## Work Experience:

### Sys Library

Mar, 2020 – Current

#### Role: SDET / Software Development Engineer in Test

- Tested different layers, Front-End (UI), and Back-End (API, Database), of web-based applications as part of the course curriculum.
- Performed both **manual** and **automated** testing.
- Experienced in **Scrum** environment and Sprint meetings to develop faster, iterative and innovative processes.
- Studied **Java** in depth and done and performed daily quizzes on many different java coding problems.
- Applied Selenium Page Object Model (**POM**) design with Cucumber to create reliable Hybrid Automation Framework.
- Attended all meetings (Grooming, Sprint Planning, Retro, Daily Stand up, and Demo).
- Created Behavioral-Driven Development (**BDD**) Framework, Data-Driven Development (**DDD**) Framework using Cucumber.
- Implemented Cucumber **Framework** with Maven, **Java**, Selenium WebDriver, JUnit, TestNG, and Jenkins.
- Experienced in Cucumber Selenium Framework using **Gherkin** Language in Feature File.
- **Troubleshoot** applications and found available **defects**.
- Tested **RESTful** Web Services using Postman and RESTAssured Library using **Java** Programming Language.
- Used different **testing** tools such as cucumber, selenium web-driver, maven, Junit, TestNg, JDBC, Oracle SQL Developer, Postman, RestAssured, Jenkins, Git, and Jira.
- Used **Jira** for issue tracking and project management in fast paced Agile environment.
- Experienced in creating reusable methods, using Java collections and file input streams to retrieve data from Excel and Database using **Apache POI**.
- Good exposure in Software Development Life Cycle (**SDLC**), Software Testing Life Cycle (**STLC**).
- Wrote **SQL** queries in Oracle, MySQL Databases to validate the data and ensure its accuracy.
- Decreased time on **Regression Suite** executing **Test Cases** in parallel on Selenium Grid.
- Automated test executions on **Jenkins** to accomplish continuous integration and delivery.

---

### Marshalls Distribution Center

Oct, 2018 – Mar, 2020

#### Role: Merchandise Associate

- Performed manual **usability** testing for products to ensure it is fully usable and free of any defects

- Performed product **quality** testing by verifying the quality of the product and making sure that it meets end-users' expectations.
- Tracked and observed any possible issues with products and fixing them along with QC department.

## **Ministry of Education**

**Feb, 2013 - Sep, 2018**

### **Role: English Teacher**

- Taught English Curriculum to Primary school Student to High school students
