Software Development Engineer with 4 years of experience in delivering software solutions of utmost quality. I have worked on several applications for different businesses and have always been a strong team player.

WORK EXPERIENCE

SIGMOID ANALYTICS

Bangalore, Karnataka

Software Development Engineer - II

June 2019- Present

- **Data Engineering-** I am working with the Data engineering team and involved in gathering requirements from the clients, designing & developing data ingestion pipelines for clients across multiple domains. I have used **Scala and Spark** working on this project.

PHILIPS INNOVATION CAMPUS

Bangalore, Karnataka

Software Engineer - II

June 2016- May 2019

Projects

- **Intelli Bridge System-** I have contributed immensely on IBS where we have interfaced and integrated several ICU devices with Philips Monitoring System. On technology side the project involved deep knowledge of **C++, C#, Data Structures on Linux development environment**.
- **IntelliSpace Critical Care & Anesthesia(ICCAs)**- ICCA is a largely sold charting application used by hospitals and I have been a part of ICCA backend team which largely involved handling the real time patient data coming as HL7. The backend implemented **Java, C++ and C#** and was compatible with various Philips systems to fetch the patient data.
- **ICCA Anywhere** – This is a mobile version of ICCA which was widely appreciated as the patient data of ICUs can be remotely accessible to doctors and health consultants. The project involved Android development and integrating existing ICCA solution on the backend side. It involved, **Java, C++ , C# ,Android Framework and various rest APIs**.

-

MAKE A DIFFERENCE

Bhopal, Madhya Pradesh

Project Coordinator

Aug 2013-June 2015

I worked as a project coordinator at a NGO 'Make A Difference' and built strategies for demonstrating impactful operations. It works for imparting education to underprivileged children across the country. This NGO is funded by The WHITE HOUSE, USA.

EDUCATION 🏠

Maulana Azad National Institute Of Technology

Bhopal, Madhya Pradesh

B.Tech in Computer Science & Engineering

2012-2016

- During my graduation, I have worked on several research projects on domain like Machine Learning.

I was also selected as Summer Research Intern 2015 at **IIIT-Hyderabad**
