Thrymr Software, Gachibowli - UI Developer

Projects

Web Projects:

- **Apollo(ATOM)**

Apollo tyres is a leading tyre manufacturers in India. We provided the platform to manage their Items inventory at the plant, indent for transport and dispatch them accordingly to the other shippable locations by generating a Loadslip.

Technologies Used - HTML5 ,CSS3, Angular material, ngx data table, Angular 6, RXJS.

- **CDAC(Chinese Development Assistance Council)**

CDAC offers programmes and assistance schemes to help the less privileged in the community to maximise their potential and strive for social mobility through self-help and mutual support.

CIIS (CDAC INTEGRATED INFORMATION SYSTEM) objective is to develop functional specifications for a new revamped web based integrated IT software application model. This new model is a successor to the current Standalone IT customised application software and is integrated, data centric, efficient and robust to handle the changing social landscape.

Technologies Used - HTML5 ,CSS3, ngx bootstrap, Primeng, Angular 5, RXJS.

Android Projects:

- **Workex**

Workex is a platform that brings together India's Workforce and their Employers. While there exist many 'solutions' that claim to bring both sides together, we have reason to believe they don't work. In our understanding - the right solution will assist businesses hire right candidates and job seekers find job opportunities - in minutes.

Candidates can search for full time & part time jobs and also for apprenticeships. The whole process takes only 3 taps - one each for apply, chat & accept a job offer. Employers can post jobs, browse candidates, share and receive interests from them, shortlist and share job offers via the platform. Again, 3 simple taps are needed - one each for post, chat & hire.

Technologies Used - Android, Java, XML, Rx, Json,SQLite, Firebase.

- **Inspirage 24/7**

We are the integrated supply chain specialists solving business critical challenges from design to delivery. We provide end-to-end consulting and implementation solutions that link Innovation Management, Supply Chain Management and Logistics Management, as well as core ERP. We partner with our customers to break down information silos and optimize performance to accelerate innovation, fuel growth and achieve operational excellence.

Technologies Used - Android, Java, XML, Rx, Json, SQLite.

- **WisdomJobs**

Wisdom jobs is a job portal where job seekers can search for jobs in an easier way. It is a single stop for job search, skill testing, skill development and resume writing services.

Technologies Used - Android, Java, XML, Rx, Json, SQLite.
