PROFESSIONAL EXPERIENCE   3+ Years

OD Alternatives	Free-Lance - Data Analyst	May 2020 - Jun 2020
Roles & Responsibilities	• Analysed the interaction data for formal networks; explored the correlation between various employee parameters and interaction scores which contributed to the informational advantage of talent management for an E-commerce major.	

TrustSphere	Consultant - Data Science	Mar 2019 - May 2020
	Headquartered in Singapore, **TrustSphere** is a **Relationship Analytics** company offering solutions in the areas of sales & people analytics.	
Roles & Responsibilities	• Delivered multiple end-to-end data science engagements which improved decision-making and formalized workforce strategy. Few of the recent project examples include – Measuring the impact of leadership programs for a leading FMCG, Diversity & Inclusion measurement for multinational luxury goods conglomerate and Identifying Influencers & Potential Leaders for a leading South-East Asian bank. • Led a two days' workshop having 100 attendees aimed at highlighting the importance of e-mails in workplace communication which exhibited our technology using e-mail server transaction logs to gather insights. Presented case studies, analytical reports & findings from reputed academic journals to underpin. • Entrusted for managing the CRM account for APAC region; carried out exhaustive research to step-up diminishing sales figures and explored 350 prospective clients which screened our strategic roadmap and increased sales pipeline figures by $500K in Q2 2019. • Led innovation initiatives and implemented a consultative approach to identify gaps, built business-cases and designed collaterals for understanding. • Responsible for supporting company events by liaising across functions and prepared point of view documents to support practice and sales initiatives.	

Tata Consultancy Services	System Analyst	Dec 2015 - Aug 2017
Roles & Responsibilities	• Collaborated in a team of 4 for a Global Telecom client; implemented Service Management Solutions, ensuring Work Technology consolidation for improving the operational efficiency across infrastructure towers. • Mediated between IT head and business users for various business requirements and published meaningful business reports using BI tools. • Contributed technical expertise in IT Infrastructure Services to Network, Database and Operations as a zonal SPOC (single point of contact).	

ACADEMIC PROFILE

2020	Master of IT in Business	Financial Tech. and Business Analytics	**Singapore Management University	Singapore**
