PROFESSIONAL SUMMARY

- Software engineer with experience of **7 years** in software development.
- Strong programming skills and experience in Java, Web Services, Spring Boot, Microservices, Spark, AWS, HTML, CSS, JavaScript, Angular and React.js.

TECHNICAL SKILLS

- Java
- Spring Boot
- Microservices
- Hibernate
- Web Services
- Scala
- Spark
- AWS
- HTML
- CSS
- JavaScript
- Node.js
- Angular
- React.js
- MySQL
- SQL Server
- Git
- Jenkins
- Docker
- Kubernetes
- MongoDB

ACADEMIC SUMMARY.

- **BMS College of Engineering**
2012 – 2016
B.E in Electronics and Communication Engineering
CGPA = 9.35.

EXPERIENCE SUMMARY

- Worked as a Software Engineer in **Onmobile Global Limited**, Bangalore from 08/08/2016 to 17/02/2022.
- Worked as a Module Lead in **LTIMindtree Limited**, Bangalore from 21/02/2022 to 19/01/2023.
- Working as an Associate Software Programmer in **Boeing India Private Limited**, Bangalore from 25/01/2023 to till date.

PROJECTS SUMMARY

Project: Mobile Web Application

Duration: December 2016 - August 2019

Technologies: Java 8, Spring Boot, Hibernate, Angular 8, HTML, CSS, MySQL

Project Description:

- This project was developed for launching contests on mobile devices.
- This project was migrated to Challenges Arena project by adding new features.

Responsibilities:

- Development of the web application using Java 8, Angular 8, Spring Boot and MySQL.
- Implementing the code changes required for the project design changes.

Project: Challenges Arena

Duration: August 2019 - January 2022

Technologies: Java 8, Spring Boot, JPA, Angular 8, HTML, CSS, MySQL, AWS, Microservices

Project Description:

- This project was developed for launching contests and games on mobile devices.
- The user should register for playing any contest or game.
- The scores of the players will be displayed in the activity page.

Responsibilities:

- Development of the web application using Java 8, Angular 8, Spring Boot and MySQL.
- Implementing the code changes required for the project design changes.

Project: Airline Reservation Application

Duration: March 2022 - January 2023

Technologies: Java 8, Spring Boot, Angular 8, HTML, CSS, AWS

Project Description:

- This project was developed for creating an airline reservation application.

Responsibilities:

- Implementing the code changes required for the project design changes.
- Writing the test code.

Project: Aircraft Parts Package Application

Duration: January 2023 - Present

Technologies: Java 17, Spring Boot, Microservices, Spark 3, Angular 15, HTML, CSS, Microservices

Project Description:

- This application contains the details about the aircraft parts provided to the customers.

Responsibilities:

- Processing of the big data using Spark with Scala programming language.
- Migration of the Angular version in the application.
- Implementing the code changes required for the project design changes.
