## ORACLE SQL, PL/SQL DEVELOPER

- **7.5 years** of programming experience as an **Oracle SQL, PL\SQL** Developer in Analysis, Design and Implementation of Business Applications using the Oracle Relational Database Management System (RDBMS)
- Involved in all phases of the **SDLC** from analysis, design, development, testing, implementation and maintenance with timely delivery against aggressive deadlines
- Expertise in Client-Server application development using **Oracle 12c/11g/10g** Database
- Experience in Oracle supplied packages, Dynamic SQL, Records and PL/SQL Tables
- Expertise in Dynamic SQL, Collections and Exception handling.
- Experienced in back end database development using tools **SQL\*PLUS, SQL\* Loader, SQL Developer, Oracle TOAD** with good understanding of RDBMS and Normalization Techniques
- Writing scripts for collection of statistics, reorganization of tables and indexes, and creation of indexes for enhancing performance for data access
- Commanding knowledge and hands on working experience with complex/large database packages, procedures, functions and triggers with Oracle Database
- Experience in Query Optimization, Debugging, and Tuning for improving performance
- Working knowledge of **Unix/Linux**
- Hands on experience with **Informatica Power Center**
- Good knowledge in optimization techniques of application and handling big amount of data
- Good understanding of **Agile** process
- Knowledge of enterprise scheduler (**Autosys**)
- Strong understanding of **CI/CD** - DevOps, Change, Release management concepts
- Experience with code repositories (**Git**), continuous integration tools (e.g., **Jenkins**, Maven)
- Good usage of **JIRA** project management for tracking user stories plan sprints and task distribution
- Expertise in writing **Technical Documentation**
- Good problem solving and analytical skills with the ability to present clear and concise problem definition and solution statements
- Self motivated, flexible, adaptable, team player
- Solid technical skills and ability to adapt skills to a broad range of applications and technologies
- **Oracle SQL Certified Associate**

## EXPERIENCE

### App Development Senior Specialist – Societe Generale, *Bangalore, India*

03/2019 – Present

- BRD analysis, development, regression, UAT testing and post production issue support
- Developing new, and maintain existing, features on Oracle Database and Informatica
- Writing PL/SQL queries, procedures and packages to deliver business requirements
- Providing input to daily stand-ups, story sizing and sprint planning & retrospectives
- Supporting business and teams with development, data queries and other ad hoc requests
- Proactively contribute to increasing the team efficiency by sharing knowledge, providing feedback about best practices, writing tools / utilities
- Performing development quality checks using **SonarQube**
- Participating in continuous improvement efforts in enhancing performance and providing increased functionality Proficient in self-testing of applications, unit testing and use of mock frameworks, test-driven development (**TDD**), and continuous integration/testing
- Identify and tune poorly performing queries
- Developing various Informatica Mappings/Workflows with the collection of all Sources, Targets, and Transformations using Informatica Designer and Workflow Manager
- Mentor and assist other SQL Developers on their technical responsibilities
- Developed and maintained automated CI/CD pipelines for code deployment using Jenkins
- Automating and scheduling manual batch processing with Unix Shell Scripting and Autosys tool

### Software Engineer II – Dell International Services, *Bangalore, India*

09/2016 – 03/2019

- Partnering with Project Managers, Product Owners, SME's and Business Analysts to develop project estimates
- Involving in design, analyze, develop, test and debug the SQL Queries necessary to meet the business requirements of varying size and complexity
- Delivering high quality code, on time and within budget, based on original scope and requirements
- Performing code reviews and assist the team in supporting the application in all required environments
- Proactively looking to develop and implement best practices across the entire project team
- Providing status reports on daily scrums and actively involved in sprint grooming sessions, review and retro meetings
- Creating several database objects like tables, indexes, constraints, grants, sequences, APIs
- Exporting data from oracle tables into various formats like csv, txt, xlsx and importing data from different file formats into oracle tables
- Writing efficient pl/sql constructs like procedures, functions, packages and triggers to migrate data from source to target databases
- Adherence to Database Security by running security scans using Fortify Scanner
- Creating technical design documents and preparing data flow diagrams for each business release
- Performing the POC of newly released Oracle features like **EBR**
- Participating the Hackathons to showcase technical skills

**Associate IT Consultant** – ITC Infotech India Pvt Ltd, *Bangalore, India*

**04/2015 – 04/2016**

- Analyzing requirements and developing various workflows for Exit Management module
- Developing procedures and packages to implement Payroll process for different clients
- Processing payroll data coming in several formats [csv, txt, dat, xml...] using **UTL\_FILE**, **External Table** concepts
- Creating generic functions to calculate fixed pay components of CTC like BASIC, HRA, PF... etc
- Accessing remote data by making use of Database links
- Creating complex views to be used in various modules to display payroll info

**Software Engineer** – Solugenix India Pvt Ltd, *Hyderabad, India*

**03/2013 – 02/2015**

- Development, improvement and maintenance of software
- Design and Development (Oracle)
- Development of the new features, modules, change requests for the existing software
- Bug fixing
- Part of Architect responsibilities
- Estimations, Investigations, Research
- Refactoring, Unit and Integration testing

 **EDUCATION**

**Madanapalli Institute of Technology and Science** – Bachelor of Technology (I.T) (2007 – 2011)
