PROFESSIONAL EXPERIENCE

Infosys Technologies

Senior Salesforce Functional Consultant

Sydney, Australia

June 2020 to Till Date

Working for Infosys Technologies as a “**Senior Salesforce Functional Consultant**” dealing with different projects in building the UI from UX designs and creating LWC, Aura components which are to be used in Salesforce communities and participated in technical solution design and requirements gathering when and where it was required. I have worked for below clients and their projects.

Manildra

The Manildra Group is a major force in Australia’s agricultural and food industries. Manildra is the largest user of wheat for industrial purposes in Australia, and also refines the entire New South Wales sugar crop. As they were dealing with individual customers and businesses we helped them in achieving that with Salesforce B2C, B2B commerce cloud. on Salesforce B2B, B2C commerce, LWC components, Aura components

State Revenue Office Victoria

The State Revenue Office (SRO) is the Victorian Government's major tax collection agency. For SRO I have worked as a full stack developer. This application is built

using the “Customer community portal”. For this project I have worked on Salesforce, Communities, Customer community portal, LWC components, Aura components

CCAMATIL

For CCA, I have worked on B2B , B2C commerce applications. I have worked as a front-end developer for this project. Created LWC components, pages in community, styling the application to be mobile responsive. For this project I have worked on Salesforce, communities, B2B commerce, B2C commerce, LWC components, Aura components

DET (Victorian Government Education Program based Website

<https://www.education.vic.gov.au>) For this project I have worked on Salesforce, Communities, Customer community portal, LWC components, Aura components, Vlocity (<https://www.youtube.com/watch?v=IMRwHvB0iGw>)

Criterion Conferences (Jan 2016 to June 2020)

Salesforce Consultant, Sydney, Australia

Criterion Conferences is the company which conducts events in different cities of Australia, Newzeland and few other countries as well. I have worked for “Criterion Conferences” as Salesforce Consultant. While working here I got a chance to work on Sales, Marketing clouds as those are the main areas for their business. During my work here I have worked on creating Apex Classes, LWC, Aura, VF Pages, Creation of new objects and dumping data into Salesforce with data loader, integrating with Pardot, Formassembly, Accounting Seed for Finance, Stripe for payments.

Below are the companies I have worked earlier and there I have worked with technologies like Salesforce, PHP, JAVA, AngularJS, Wordpress, Joomla

Westpac (Dec 2013 to Jan 2016)

Senior Software Developer, Sydney, Australia

Westpac is Australia’s first bank and oldest company, one of four major banking organizations in Australia and one of the largest banks in New Zealand. I have worked on Projects like MAC (Multi Branded Application Capture), LOLA (Live Online Lending Application) with technologies Html, CSS, Angularjs , JAVA , JSP, MySQL , Bootstrap etc.

Infosys (Mar 2012 to Dec 2013)

Senior Software Developer, Hyderabad, India

Sparsh Communications (Jan 2011 to March 2012)

Software Developer, Hyderabad, India

Zawsoft Technologies (July 2009 to Jan 2011)
Software Developer, Hyderabad, India
