Intermediate(2013 - 2015) Buxi Jagabandhu Bidyadhar College, Bhubaneswar. **Score : 75%**

Matriculation (2012 - 2013) Saraswati Sishu Vidya Mandir,Gunupur **Score : 92%**

HOBBIES

tech-savvy   Travelling   Listen Music   mentoring   Stock market

Work Experience

Senior System Engineer
Tata Consultancy Services
Jan 2020 - Present

Service Engineer
GO Speedy GO
May 2019 - Oct 2019

Projects

- BPS Dividends (Reconciliation System)

Project Description: BPS dividend product is part of many giant bankers in the USA which has many submodules and its closely associated with different products like re-investment, swift messaging, Gloss, etc. Under this system, the dividend is calculated after the announcement of stocks. And finally, the positions are calculated, and dividend amounts are calculated after the deduction of the tax. The reconciliation system has two different feeds called Vendor feed and System feed which had to manage the position for a out of balance adjustments.

Responsibilities: Worked on development of applications using React JS, Redux-toolkit, JavaScript, HTML, CSS, RWD, Sitecat and Accessibility. Worked on all phases of software development life cycle including Analysis, Design, Development, Testing and Support. React Optimization using hooks Developed applications by following Americans with Disability Act rules. Worked on CI/CD using Jenkins and even GIT.

Exposed to: React JS, React Hooks, ES6, CSS3, HTML5, Bootstrap, Redux-toolkit, JavaScript, , HTML, CSS, Git, Jenkins Sonar, React Dev Tools(Profiler and Component)
