Ankush Chauhan

DevOps Engineer

Certified DevOps Engineer with 3+ years of hands-on experience automating and optimizing critical DevOps tasks. I am associated to good projects and it has added to my ability to multi task and work on different aspects of Release Engineering and DevOps practices. I have been the main point of contact from off-shore team which has built a great confidence and right attitude towards the role. I wish to continue this work as it interests and excite me greatly.

Work Experience

04/2019 - date

Software Engineer

Xpanxion International, Pune

I am working with Civicplus, US client. I work under release engineering team(subset of product engineering) whose main responsibility is to maintain and enhance tools and rollout the code to production and maintain the complete SDLC of the product. My key responsibility

- Setting up pipelines using Azure and AWS
- Planning release engineering for the product
- Enhancement and Maintenance of home grown deployment tool(ASP.NET/AngularJS 2.0)
- Directly communicate with client stake holders to plan and providing release updates.

01/2018 – 03/2019

Associate Software Engineer

Xpanxion International, Pune

Started with CivicPlus project with initial introduction to DevOps role.

- Understand the product with a DevOps mindset
- Research and Plan on how to implement DevOps tools
- Implement POC on DevOps tool

07/2017 – 31/2017

Software Trainee

Xpanxion International, Pune

Created recruitment management portal. I worked as c# developer in the project. Key task was to create and test the Presentation, Business and Data access layer and also used linq to query the Db
