To seek a position to utilize my abilities in the organisation that offers professional growth while being innovative. Intend to build a career with committed and dedicated people.

Work Experience

Software Engineer

Tech Mahindra Limited

June 2018 to Present

I was working under java development project, where I was working for enhancing the capabilities of a tool developed in java. After working on that project for 1 and half years I shifted to Cloud Migration initiative where I am working as cloud engineer.

I have experience on java, web programming and Azure 104.
