Tools	Eclipse, SVN, GIT, JIRA, Bugzilla
Databases	MySQL, SQL Server , Oracle10g, PostgreSQL
Reporting Tools	Apache POI, Jasper Reports(iReport, Dynamic Jasper, Dynamic Reports)

Educational Qualification :

- Passed B.E. in Electronics & Telecommunication from Cummins College of Engineering, Pune.
- Passed Diploma in Electronics & Telecommunication from Government Polytechnic, Ratnagiri.

Professional Experience :

- **Cognizant Technology Solutions, Pune**

April 2016 – Till Date

Role : Senior Java developer

Project Name : Payment Systems

Client : LiveNation

Technologies : Core Java, Spring, Spring Boot, REST, JUnit, Cucumber

Livenation Entertainment works in saling tickets for live entertainment, it owns and operates entertainment venues, etc in US and ilternationally. We develope various microservices which take care of payments using different types of payment modes.

Responsibilities:

- Discussion with client about requirements, understanding it through documentation, working on design and implementation of the same using webservices
- Writing Junit and Functional Tests for it.

Project Name : CDF Rewrite

Client : Suntrust

Technologies : Core Java, Spring, Spring Boot, REST, JUnit

CDF is Common Digital Framework for all digital applications provided by Suntrust bank. Previously CDF was written in .Net, but there were some issues. We worked on rewriting the web services in Java.

Responsibilities:

- Discussion with client about requirements and queries regarding the same
- Web service development using spring boot.

Project Name : Commercial Paper

Client : NSDL

Technologies : Core Java, Spring, Hibernate, PostgreSQL, Spring Boot, REST

Commercial Paper (CP) is an unsecured money market instrument issued in the form of a promissory note. Commercial papers typically are used by issuers to manage the working capital requirements. The commercial paper issuance and redemption process is a large manual process. This project is developed to automate the process.

Responsibilities:

- Web service development, DB design, guiding junior team members
- Discussion with client about requirements, CRs, Defects etc. and helping team to understand the same.
- UAT support, defect fixing, helping team members to analyze the defects assigned to them

Project Name : RFP - SRF

Client : Barclays

Technologies : Core Java, Spring, Hibernate, Junit, MySQL

The invoice upload process was manual and calculations were done on excel sheets. In order to speed up the calculations, reduce human errors and increase operations this tool is built. Also there is facility to generate reports and share the reports with right stakeholders.

Responsibilities:

- Worked on SRF Reporting module.
- Worked on API development for Invoice Purchase module.
- Understand business requirements, analysis, code impact analysis, development, bug fixing.

Project Name : Development Monitoring Unit (DMU)

Client : Barclays

Technologies : Core Java, Spring, Hibernate, REST, Junit, MySQL

DMU captures and maintains details of the monitoring required for each development project. This information was maintained in Excel sheets, which used to take a substantial amount of time to collate the data to produce reports. So, in order to speed up the process, reduce human errors and increase operational efficiency, this application DMU is developed.

Responsibilities:

- Worked on Reporting module and One Time Migration module.
- Understand business requirements, analysis, code impact analysis, development, bug fixing.

• **Symphony Teleca Pvt. Ltd., Pune(by Harman International) May 2014 – March 2016**

Role : Java developer

Project Name : Sensor To Cloud (S2C)

Client : Verizon Wireless

Technologies : Core Java, Spring, Hibernate, REST, Junit, MySQL

Responsibilities:

- Understand business requirements, analysis, code impact analysis, development, bug fixing and documentation.
- Mentoring new resources with technical guidance.

Project Name : OneMDM

Client : Verizon Wireless

Technologies : Core Java, Spring, Hibernate, REST, Junit, Oracle.

Responsibilities:

- Understand business requirement, analysis, development, bug fixing and documentation.
- Mentoring new resources with technical guidance.

• **DecizonSoft InfoTech Pvt. Ltd., Pune**

May 2012 – April 2014

Role : Java developer

Project Name : E911 Order Monitor and PSALI, OSDA(Operator Service Directory Assist) Automation system, Network Polling

Client : Windstream Communications
