Salesforce Developer
Siliconindia Technologies PVT LTD
Job Responsibilities

07/2019 -10/2021
2.3 Years

Experienced Salesforce LWC Developer proficient in Lightning Web Components, JavaScript, and app development. Committed to delivering high-quality solutions for seamless Salesforce integration.

PROJECTS

200OK   (available in App Exchange - Salesforce)   10/2021- Ongoing

A gateway to connect Salesforce to any external system without coding. 200 OK is a native and no coding integration automation tool right within the Salesforce

- Led development as the primary developer,Responsible for Lightning development, feature enhancements, bug fixes, support, testing, test class creation, and documentation.
- Worked In Lightning Component Development and Reusable Lightning Web Component and Aura Component.

DOCUPRIME (available in App Exchange - Salesforce)   10/2021 - 10/2022

Docuprime is a tool to create any type of document in Salesforce with just one click. and access multiple functionalities like document preview, edit, and email options with multiple file formats and flexible & conditional delivery options.

- Developed features like Esign, field merge, pdf generation etc.
- Packaged metadata and code, resolved bugs, conducted security scans, and achieved test class coverage for the final release.

Marketing Cloud Application-ADA Custom Activity   04/2023 - 07/2023

Developed a Salesforce Marketing Cloud custom activity app seamlessly integrated into Journey Builder. This app empowers Marketing Cloud users to send bulk WhatsApp messages with data binding to contacts from data extensions and various sources within the Marketing Cloud environment.

ADA Connect-Sales Cloud Application   06/2023 - 10/2023

Created ADA Sales App seamlessly integrates WhatsApp within Salesforce CRM, enabling businesses and users to communicate with leads and customers, as well as send template messages using data binding through the ADA messaging service.

- Designed and executed an integration between Salesforce Marketing Cloud/Sales Cloud and WhatsApp for efficient communication.
- Enabled bulk WhatsApp messaging to reach all contacts within Marketing Cloud data extensions and Sales Cloud objects.

NoachLaw(Dynamic DataTable)   10/2022-10/2023

Developed a versatile dynamic datatable component designed for seamless integration into various products, enhancing the efficiency of the legal operations application described above.

Xoxoday - Loyalty Management   07/2023

Created a proof-of-concept project for Xoxoday's loyalty management system as part of Dreamforce, which included the development of a community site for voucher redemption.
