Excellent in leadership skills and a highly analytical focus, enthusiastic and eager to contribute to team success through hard work, Ability to understand the Business requirement along with technical Expertise. Motivated to learn, grow and excel in the industry. Strong background in project management and customer relations.

PROFESSIONAL SUMMARY:

➢ 6 years of Experience in Information Technology including 3+ years of experience in building RPA (Robotics Process Automation) solutions using **UiPath**.

➢ Ability to understand a business process from a workflow diagram and to conceptualize it as an automated solution.

➢ Using provided business requirements, architect and design robotic automation solutions.

➢ Involved in gathering Business requirements, designing and implementing.

➢ Communicated effectively and worked co-operatively with **IT** team members, business users and outside business partners.

➢ Identifying and debugging the errors using Error Handlers and Strong logical and problem-solving skills and designed solutions utilizing **RPA** best practices and maintain technical responsibility for project delivery.

➢ Automated tasks using Web Recorder and Scheduled Tasks to repeat as per requirements.

➢ Hands On experience in **Web**, **Windows** based Application Automation.

➢ Experience in PDF, **Excel**, **CSV**, **Email automation.**

➢ Expertise in using Credential Manager for maintaining, securing and retrieving user credentials.

➢ Experience in automation using **UiPath RE** (**Robotic Enterprise**) **Framework** with Orchestrator Queues to and Assets for storing Credentials.

➢ Experience on usage of various UI Path Orchestrator functionalities - Robots, Processes, Assets, Queues, Jobs, Schedulers and recovery methods.

➢ Experience in Application development using **HTML**.

➢ Develop and implement change requirements as well as problem solving issues that arise in day to day running of RPA processes and providing timely responses and solutions as required.

CERTIFICATIONS:

- ✦ Certified **RPA** Developer in Diploma in **UiPath**

  - ✦ **UiPath** - RPA Developer advanced

TECHNICAL SKILLS:

RPA	**Uipath** studio**,** Orchestrator**,** REFramework**.**
Tools	Microsoft Office 2003, 2007, 2013, 2016,2018,2019
Web Technologies	HTML, C#, VBA
Version Control	GIT
Development Environments	Visual Studio 2005, 2008, 2017, **UiPath** Studio
Operating Systems	Windows XP/2000/7/10

EDUCATION:

- ✦ **B-Tech (Electronics & Communication Engineering) from Vaageswari College Of Engineering (JNTUH).**

EXPERIENCE:

Wipro Technologies, from June 2018 to February 2021.

Zensar Technologies, October 2021 to June 2022

Bigperl Solutions Pvt Ltd, from September 2022 to present.

Project 1: RPA Developer & Supporting (UiPath)

Title   : **Review of Each Fund Investment.**

Summary:

The Investment mandate report is performance review report looking at various fund investment products. This report is compiled on a weekly basis. The investment mandate spreadsheet summarizes the quarterly performance for the various products like Green Property Fund, Guaranteed Dream Maker, Universal Life- Smooth Bonus, Universal Life Managed.

Automating this process reduces the amount of time the product analyst spends updating the quarterly Investment Mandate and it will also reduce the number of steps performed prior and after the spreadsheet has been updated.

Project 2: RPA Developer & Supporting (UiPath)

Title   : **UI Automation with BOT input sheet.**

Summary:

Built solution which takes the data dump from business team in a spreadsheet. Locates the client and downloads the csv file from the web application, Updates information in windows application attaches CSV file and triggers the task.used UiPath automation elements such as Mouse, Keyboard and Attribute to automate the desktop sequence activities Implemented selectors for interacting with window and web browsers for continuous navigation of applications Worked with SME's to create PDD (Process Definition Document) and developed separate SDD (Solution Design Documents).

Project 3: RPA Developer & Supporting (UiPath)

Title   : **Merz Pharma Automation.**

Summary:

This project was related to Automation of web application that include extraction of reports declared dynamically and saving them as PDF and modifying the pages in merged PDF. Email automation which includes saving the attachment to a specific location. Web Automation which extracts data from one application and posts into another web Application.

Project 4: RPA Developer & Supporting (UiPath)

Title   : **Due Diligence – Suppliers.**

Summary:

The Due Diligence team under the Group Financial Crime Forensics and Security (GFCFS) has decided to automate their manual mundane processes by introducing a robot thereby increasing the overall efficiency of the process. The Due Diligence team is responsible for the assessment of a Sole Proprietary (individual)/ Organization depending on the request received from the Procurement Team/requester.

Project 5: RPA Developer & Supporting (UiPath)

Title   : Process Automation with API's.

Summary:

Web application and receive the policy details that needs to be renewed, locate the client in windows based application renew the current term policy in EPIC and update the request status back to application. Implemented End to End Robotic Process Automation (RPA) using UiPath. Implemented selectors for interacting with window and web browsers for continuous navigation of applications.

Project 6: RPA Developer & Supporting (UiPath)

Title   : Policy Renewal Automation.

Summary:

Web application and receive the policy details that needs to be renewed, locate the clint in windows based application renew the current term policy in EPIC and update the request status back to application. Implemented end to end Robotic Process Automation using UIpath.

DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge and belief.
