TECHNICAL SKILLS

ETL Tools:

Informatica Cloud IICS

Informatica PowerCenter 10X

Scheduler: Autosys & Tidal

Databases: Snowflake, Oracle, MS SQL Server

Scripting/Programming: Shell scripting, SQL, PLSQL, T-SQL

EDUCATION

B.E Computer Science
Full Professional Proficiency

CERTIFICATION

Informatica PowerCenter Data Integration 9.X: Developer Specialist

WORK EXPERIENCE

Accenture
Data Engineering Associate Manager

10/2021 - Present
Achievements/Tasks

- Successfully migrated 9000 assets from Informatica PowerCenter to Cloud within a year.
- Collaborated with stakeholders across departments to design, build and deploy various initiatives within the data platform.
- Facilitated asset scope finalization, understanding systems and migration. Owned code review sessions with the clients as part of offshore development team.
- Implemented automation scripts to analyze existing code, so that 30+ hours of manual effort were reduced for each batch of jobs.
- Managed and influenced a team of 11 developers as part of a cloud migration project, mentored them and achieved all project deliverables on time.

Module Lead
Mindtree LTD

05/2018 - 10/2021
Achievements/Tasks

- Improved performance of workflows with speed gains of up to 150%.
- Designed flexible and reusable ETL components that can be utilized in 30 jobs and also can be leveraged for additional requirements in future.
- Performed downstream impact analysis with good functional and technical understanding across multiple applications and performed end-to-end data validation with business users, created QA and UAT test scripts in SQL, involved in databases modelling and facilitated project sign-offs for multiple projects.
- Worked with developers, DBAs and systems support personnel in elevating and automating successful code to production.

Senior Software Engineer
Accenture

12/2017 - 05/2018
Achievements/Tasks

- Created dashboards using Cross Map, Scatter Plots, Geographic Map, Pie Charts and Bar Charts using Tableau for a retail client.
- Developed and tested programs using SQL, PL-SQL and SQL Loader for database applications.

Associate
Cognizant Technology Solutions

12/2011 - 11/2017   *Chennai*
Achievements/Tasks

- Extensively worked on building data marts using Informatica PowerCenter and DataQuality.
- Created UNIX shell scripts to extract and load data to Oracle.
- Developed new ETL applications, maintain, support and improve the performance of existing applications in production.
