A highly motivated individual with the required drive and ambition to continue to build a career in technology leadership. Having a total of 7 years of experience in the IT industry, and hailing from an engineering background, passionate about building products with sustainability and reliability as foundational capabilities. Have gained a lot by working on a wide variety of projects like development, testing, and maintenance, which lead me to my current role of Chief Scrum Master cum Change Manager

Skills

- Experience in managing projects and associate change management
- Profound experience with Stakeholder Management and Risk Management
- Cross-functional Team Leadership
- Practical and in-depth knowledge of Scrum
- Sound knowledge of Agile Methodologies
- Immense ability to perform Requirements Analysis
- Excellent communication skills
- Management Tools – Azure DevOps Board
- Effectively utilized various Databases: Oracle 10g, SQL Server
- Sound knowledge of programming languages: Unix, C++, Python
- Well versed in Version Control tools: GIT, Sharepoint
- Working experience on Ticketing tools for Service Requests, Incidents, Problem Management and Change Management: ServiceNow and BMC Remedy tool

Work History

2014.04 – Present

Chief Scrum Master cum Change Manager

Wipro Limited, Hyderabad, Telangana

Responsibilities:

- Facilitated daily scrum, sprint planning, sprint demo, and retrospective meetings
- Facilitated Scrum of Scrums to address impediments and inter-team issues
- Adept at refinement, story splitting, estimation, velocity, retrospection, and other Scrum techniques
- Collaborated with the Chief Product Owner, other Scrum Masters, and BAs in activities to develop the list of components and resources needed in common

- for all teams throughout the project
- Guided the teams on how to get the most out of self-organization and to fill in the intentional gaps left in the Agile/Scrum frameworks.
- Coached the team to higher levels of maturity, at a pace that is sustainable and comfortable for the team and organization
- Created useful, reliable, and practical plans for delivery projects.
- Helped team and individual members to clarify goals and actions to achieve them
- Helped maintain healthy scrum artifacts with expected clarity on DoR and DoD.
- Have an understanding of Progress metrics like burn down, burn up, and velocity tracking to ensure Scrum standards are followed.
- Ensured the correct use of the scrum process with excellent ability to track and remove impediments
