I seek a challenging assignment in organization that will utilize my knowledge and experience. My aim is to contribute to the objective of the organization and to grow with it. Having an experience in the fields of competition I can be sure of my commitments towards the company which will endeavour far most in achieving goals.

## **PROFESSIONAL SUMMARY**

- ETL Tester having 4+ years of experience in ETL Testing.
- Proficient in the Testing of ETL (Extract, Transform, Load) processes with a good understanding of Source to Target data mapping and Business rules.
- Expertise in Writing Test Cases, Executing the Test Cases.
- Involved in Sprint Planning Meetings, Sprint Review Meetings and Sprint Retrospective Meetings.
- Having experience in SQL, Software Development Life Cycle and Defect Life Cycle Good knowledge over ETL process in System Integration testing.
- Good knowledge in Informatica Client Components – Repository, Designer, Workflow Manager and Workflow Monitor and Strong Testing Experience in Informatica Power Centre.
- Understanding the Business Requirements which exists in Mapping Document and Design Document and Participating in Mapping Document walk thru calls with Business Analysis Team to get the clear idea of Transformation Rules.
- Well acquainted with knowledge of AGILE [SCRUM] Methodologies, STLC [Software Test Life Cycle] & Testing Methodologies.
- Strong knowledge on SCD [Slowly Changing Dimension] Type 2 Testing and Audit Field Validation as part of SIT Testing.
- Knowledge on Structure validations on source table to target tables.
- Strong knowledge on End to End Defect Life Cycle Management using HP-ALM Test Management Tool.
- Knowledge and Experience in Star schema/Snowflake schema, Dimension and Fact Tables in Data warehouse.
- Expertise in writing SQL Queries using SQL Server, Oracle and Teradata Databases.
- Working Experience on UNIX commands and Good knowledge in validating the Data between Source File and Target Table by using UNIX commands.

## **EDUCATION DETAILS:**

M.Tech – Embedded Systems (Gudlavalleru Engineering College)

## PROFESSIONAL EXPERIENCE

- Working as an ETL Tester/ Quality Analyst in Wipro, Bangalore from July 2018 to till date.

## TECHNICAL SKILLS

<b>Software Testing</b>	ETL TESTING
<b>Databases</b>	SQL Server, Oracle, Teradata & Snow Flake
<b>Operating Systems</b>	Unix & Windows
<b>Test Management &amp; Other Tools</b>	HP QC, HP ALM, Beyond Compare tool, Notepad++, SQL Server Management Studio, Oracle SQL Developer, Teradata SQL Assistant & Rally
<b>Programming Language</b>	SQL
<b>ETL Tools</b>	Informatica Power Centre

## Project 1

### Markel Corporation

Client : **Markel Corporation**  
Databases : Oracle, Teradata  
Environment : Informatica, HP ALM  
Role : ETL Tester

### Client Description:

Markel Corporation is a holding company for insurance, reinsurance and investment operations around the world. Headquartered in Richmond, Virginia and founded in 1930, Markel reports its ongoing underwriting operations in three segments, and products originate from three insurance divisions and one reinsurance division. Through Markel Ventures, they allocate capital to invest in opportunities outside of insurance.

### Responsibilities:

- Understanding the Business Requirements Which Exists in Mapping Document.
- Involving the Mapping Document Walk Through calls with BA team to get clear understanding on Transformation Rules.
- Triggering Informatica Mappings to load the Data from Source to Target.
- Preparation of SQL Scripts to validate the test scenarios as part of Initial and Incremental under SIT Testing.
- Validating the Dimension and Fact table for verifying the relationship between the same by referring Data model.
- Validating Audit Fields as part of SCD Type2 Testing.

- Attending the calls with Dev team to discuss about the defects that found during the SIT.
- Preparation of the Test Cases according to Mapping document and Executing the Test Cases and Raising the Defects in HP-ALM.
- Preparation of Source test data when Source data does not exist according to transformation rules.
- Involved in Defect Triage meetings, involved in daily Stand Up meetings to share the daily status with team members.
- Reviewing the Test Cases which were written by other Test team members as part of peer review of the Test cases.
- Coordinating with Client side team or Source side team to perform Performance Load Validations.
- Attending the Sprint Planning and Sprint Review Meetings.
- Updating the Daily Status in Team Foundation Server (TFS) and Sending the Daily Test Status Reports.

## **Project 2**

### **Macy & Co**

Client	: Macy & Co
Databases	: SQL Server, Oracle
Environment	: Informatica, HP QC, UNIX
Role	: ETL Tester

### **Client Description:**

Macy's, originally R. H. Macy & Co., is a department store owned by Macy's, Inc. It is one of two divisions owned by the company, with the other being Bloomingdale's.
