***Highly motivated Salesforce and Oracle certified individual with 10+ years of experience in designing highly efficient and scalable solutions in Salesforce CRM and PeopleSoft ERP systems.***

- 10+ years of multi-domain industry experience (Public Services, Pharma, Advisory & Financial sector)
  - Experience in analyzing businesses, designing architecture, leading, implementing, and managing Salesforce and PeopleSoft projects.
  - Skilled in Business Transformations, Building Digital Capabilities, Agile Project Management, Backlog Refinement, Collaboration, and Design thinking with a strong emphasis on delivering value and insights.
  - Expertise in developing custom physical data architectures and logical data models, with good knowledge of continuous integration, delivery, and deployment practices.
  - Proficiency in Apex, JavaScript, CSS, Lightning Web Components, Flows with good knowledge of integration and integration design patterns.
  - Proven ability to operate in a fast-paced, and geographically distributed team
  - Experience in Salesforce Field Service, Salesforce CPQ, Billing, and Service Cloud.
- 

## EXPERIENCE

---

### ACCENTURE SOLUTIONS PRIVATE LIMITED, INDIA

(May 2015 – Present)

*Application Development Associate Manager (Dec 2021 - Present)*

- Led two scrum teams consisting of 18 development and testing resources to implement Salesforce CPQ and Billing functionalities as part OneSalesforce initiative.
- Oversaw requirement gathering, backlog refinement and provided expertise and guidance to enable teams to effectively transition to a Scaled Agile Framework Methodology.
- Responsible for developing functional and technical solutions to meet business requirements using out-of-the-box Salesforce CPQ and Billing packages as well as customizations/automation.
- Responsible for validating the quality of deliverables, code reviews, and achieving project deadlines and conformance to specifications before submitting client deliverables.
- Directed scope and effort planning across multiple program increments to successfully deliver 5 releases.

*Business and Integration Specialist (Dec 2018 – Nov 2021)*

- Authored over 25+ apex classes and test classes, 15+ lightning web components, 10+ triggers, and 12+ Salesforce Flows to achieve business requirements.
- Applied best practices to streamline business processes by leveraging Salesforce capabilities.
- Oversaw sprint planning effort, managed scope and provided functional and technical expertise in Salesforce Field Services implementation.
- Collaborated with stakeholders to define and refine the backlog, and facilitated requirement transitions.
- Led a team of 14 to design and implement Functionalities: Cash Validation and Appropriation Control, Cash Basis, Statement of Cash Accountability, Consolidated Business unit, and Ledger Reconciliation
- Accomplished deployment lifecycle including Functional designs, reviews, and migration, followed by Production support (Incident analysis and fix, Enhancements' analysis, and solution designing).
- Audited and reviewed account implemented solution for GAAP(Generally Accepted Accounting Principles) and GAAPGW(Generally Accepted Accounting Principles Governmentwide) reporting to figure out gaps in the overall solution.
- Conducted analysis, code, and configuration retrofit of 1200+ change requests in Project path environments for enhancements and incidents as part of code sync activity.

#### *Application Development Senior Analyst (Dec 2016 – Dec 2018)*

- Implemented SB(Small Business)-DVBE(Disabled Veteran Business Enterprise) Certification functionality in the PeopleSoft application to streamline the agency's administration of small businesses
- Developed 3 application engines to generate accounting information outbound files for General Ledger and Accounts Payables module information acted as a feed for Public Transparency System
- Onboarded 22 departments on the Client system and modified 15+ interfaces for legacy data processing
- Mentored 3 team members by delivering knowledge transitions, performing technical design and code reviews
- Designed technical specifications for 8 application engines to stage data for Accounts Payables, Accounts Receivables, Commitment Control, Billing, and Procurement modules to aid in the generation of reports in third-party systems

#### *Application Development Analyst (May 2015 – Dec 2015)*

- Created technical specifications, built 15+ file-based application engine interfaces, and performed end-to-end unit testing corresponding to functional modules: Billing, Accounts Receivables, and Project Costing
- Functionally tested and supported 13+ application engine programs, fixed 70+ defects, and created 50+ test packets
- Performed retrofit and unit testing of 400+ PeopleSoft Objects during PeopleSoft application upgrade from 9.1 to 9.2

### **INFOSYS LIMITED, INDIA**

(Feb 2012 – May 2015)

#### *Senior System Engineer (June 2014 to May 2015)*

- Fixed 70+ issues in multilingual PeopleSoft system having 7500+ employees on a customized module
- Created and modified 40+ State Tax form templates issued by the US government for client partnerships through Extensible Markup Language (XML) Publisher provided by PeopleSoft

#### *System Engineer (February 2012 – May 2014)*

- Performed analysis and retrofitting of 800+ PeopleSoft objects including 20+ SQRs during application upgrade to 9.1
- Developed 20+ enhancements for Inventory, Asset Management, and Accounts Payables module

### **EDUCATION**

---

#### **SRKNEC, INDIA**

(June 2007 to May 2011)

Bachelor of Engineering, Computer Science

### **HONORS AND ACHIEVEMENTS**

---

- 3 Times ACE(Accenture Celebrates Excellence) award winner at Accenture Solutions
- 7 times Star performer at Accenture Solutions

### **SKILLS**

---

Apex Programming • Agile Development • Lightning Web Components • JavaScript • CSS • Salesforce Flow  
• SQL • SOQL • SOSL • Salesforce CPQ • Salesforce Billing • Salesforce Field Service • Apex Data Loader and Data Import Wizard • Problem Solver • Critical Thinking • Agile Project Management • Leadership • General Ledger  
• Commitment Control • Account Payables, Billing and Accounts Receivables

### **TOOLS**

---

• JIRA • Git • Bitbucket • VS Code • Service Now • Copado • Application Designer- PS • Reporting Tools • PHIRE
