

RESUME

CHETAN A. CHOUDHARI

Full Stack Python Developer

E-mail: erchetann@gmail.com

Mob: (+91)7620555300

JOB OBJECTIVE:

I am a computer science graduate with a passion for developing scalable web applications and working across the full stack. I am looking to grow my skill set while contributing to a positive outcome.

INTERNSHIP:

Unique System Skills India Pvt Ltd

(Mar 2023 – Aug 2023)

Full Stack Python Developer

Worked on projects based on frontend development technologies like HTML, CSS, Bootstrap, JavaScript, and Angular. worked on projects based on backend development technologies like python, Django and SQL.

PROJECTS:

E-book store

(Mar 2023 – May 2023)

Technologies Used: Angular, JavaScript, HTML, CSS.

This is an application developed using angular, JavaScript, HTML, and CSS. This is a basic eCommerce website with all the basic functionalities like showing the product, logging in, signup for users and sellers as well, adding to the cart with the CRUD function, and proceeding to checkout.

- Responsible for creating efficient design and developing User Interaction screens using HTML, CSS, JavaScript, and JSON, Bootstrap, Angular.
- Created a e book store website's structure to ensure it is compatible with web browsers and other devices such as mobile phones or tablets.
- Developed a website which is easy to navigate, have relevant content, and provide high quality images.
- Creation new products, updating existing ones, adding them to the website catalog, and managing inventory levels.
- Extensively worked to handle dynamic data in JSON to render on screen.
- Used JSON for data transfer between front end and back end.
- Designed and coded sophisticated integrated systems including Invoice Management, Shopping Cart, Catalog Search and Browse, Pricing and User Authentication.

Invoice Generator

(Jun 2023- Aug 2023)

Technologies Used: Python, Django, HTML, CSS.

This invoice generator is a simple application developed using Python, Django, HTML, and CSS. This website provides a simple and interactive interface for end-users for adding products to the cart and generating bills for the purchased product. Then, the system will provide the option to print the invoice bill in pdf format or save it on the desktop.
