- Bachelor of degree (BSc com), Acharya Nagarjuna University in 2018, AP, India.

PROJECT DETAILS

#1 Project Name: MFB (Michigan Farm Bureau):

August 2019 to Till Now

Overview:

Implementation of Guidewire applications – Policy Center, Billing Center, and Integrations for Homeowners and Business Owner Policy LOBs and Worked on Guidewire Billing Center is a flexible billing and receivables management system that handles direct, agency, and group/list billing for all lines of business. It provides easy access to the information P/C carriers need to deliver fast, accurate service to customers and agents. Billing Center automates **the Billing lifecycle**, enables design of a wide variety of **Billing and payment plans, manages agent commissions**, and integrates with any 3rd party system to help insurers get the most from their billing system like **Invoice, Delinquency, Disbursement**.

Responsibilities:

- Prepared Test cases for Functional and Integration testing from requirement documents and proactively interacted with BA's and scrum masters on the requirement clarifications as well as blockers
- Test Execution for Configuration (UI) and Integration Testing to ensure correctness of configuration rules and integration points and completeness of data from Forms.
- Involved in Functional testing, Merge Regression, Release regression and System Integration Testing by raising defects, retesting.
- Worked on the defects which are raised during User acceptance testing and tracked them to closure.
- Knowledge on Product Model and Guidewire Studio.

- Prepared and shared daily execution report of the project to leads and managers.
- Co-ordinated with team members on the task progress, participated in client/onsite triage meetings
- Worked on major functionalities such as Delinquency, Payment processing, Lien Holder notification etc., in Policy Center, **Billing Center**, **Integration**. Groomed fresher peers into self-reliant project resources
- Groomed fresher peers into self-reliant project resources.

2) Client: Jewelry Mutual Insurance (JMI)

Guidewire 9.0

Oct 2018 to Aug 2019

Description: This Project is related to the jewelry specific for customer for policy center is a flexible underwriting and policy administration system designed to empower personal and commercial lines carriers to deliver insurance the way they've always wanted to. Designed solely for P/C insurers, Policy center is a complete system-of-record and supports the core functions of the policy life cycle underwriting, quoting, binding.

Responsibilities:

- Understanding the Requirements and Functional Specifications of the application.
