Technical Lead, Aricent, Chennai

NOVEMBER 2017 — APRIL 2019

- Utilized Java frameworks such as Spring, Spring Boot and Hibernate to develop a robust, high-performance application
- Implemented a microservices architecture that improved system modularity and reduced dependencies between components
- Optimized the application's performance by implementing caching and using memory-efficient data structures
- Developed RESTful API's that served as the backend for a web application, improving scalability and reducing latency by X%
- Developed unit tests to ensure code quality and ensure compliance with software development best practices
- Optimized code for performance and scalability
- Collaborated with other developers to ensure shared code was of high quality and met design specifications
- Conducted code reviews and mentored junior developers to improve code quality and ensure adherence to best practices

Java Developer, Sri Mookambika Info Solutions, Madurai

OCTOBER 2016 — OCTOBER 2017

- Developer at Common Framework team handling code enhancements and developing reusable components using Java and java based technologies and frameworks.
- Conducted code reviews and mentored junior developers to improve code quality and ensure adherence to best practice

Staff Consultant - Java Developer, Oracle Financial Services Software, Chennai

OCTOBER 2014 — OCTOBER 2015

Developer and support engineer involved in core enhancements and production support.

Software Engineer, Tata Consultancy Services, Chennai

JUNE 2012 — OCTOBER 2014

Java and Adobe Flex Developer. Designed and developed realtime data dashboards.

Education

M.E - Industrial Engineering , Thiagarajar College of Engineering, Madurai

JUNE 2009 — MAY 2011

B.Tech - Information Technology, Kamaraj College of Engineering and Technology , Virudunagar

JUNE 2005 — APRIL 2009
